

## ALL SORTS.

—Briggs is for war.  
—Black Wallace went below last evening.  
—John Mack will not join a theatrical troupe.  
—Nichols is considered the best dancer in the Senate.  
—The partnership bill should by all means become a law.  
—Emma Friend's concert will take place on Wednesday next.  
—The ladies of the Episcopal Church will give another sociable next week.  
—FOR SALE—The residence now occupied by Mr. Preble and family. Inquire at residence.  
—The bill shutting off the tobacco supply of smokers under 18 ought to become a law.  
—The country papers object to execution of criminals by electricity. They hate to let go the "dull thud."

—W. H. McInnis, a Reno straight Republican, is in the city and will soon assume a responsible position in the State Prison under Warden McCullough.

—The Chronicle makes a lame attempt to excuse the hog Latin employed by its Carson correspondent. No one teaching the man Latin; teach him English.

—The man who, while in the Legislature, does nothing but introduce petty bills to further his own interests, must not be surprised to see them continually knocked out.

—No other medicine is so reliable as Ayer's Cherry Pectoral for colds, coughs, and all derangements of the respiratory organs tending toward consumption. In ordinary cases it is a certain cure, and it affords sure relief for the asthmatic and consumptive, even in advanced stages of disease.

—If a well be poisoned, was be to those who drink thereat. It is worse to poison the fountain of life for one's self, and for posterity. Often by carelessness, or misfortune, or inheritance, this has been done. Ayer's Sarsaparilla frees the blood, the vital stream, and restores appetite, strength, and health.

## Another English "Fad."

"I see by the New York papers," said a Carson man, "that the wife of a prominent merchant there was recently caught spending the night at a Long Island hotel with a leading society man and there is going to be another high society divorce suit. Terrible, ain't it?"  
"Don't get excited, Billy, its merely another English fad and it will be a chestnut before the fashion gets out here."

When baby was sick, we gave her Castoria,  
When she was a Child she cried for Castoria,  
When she became Miss, she clung to Castoria,  
When she had Children, she gave them Castoria.

Tonight is the last night, and no good Christian should miss it.

## The Regent Squabble.

Gen. Clarke and Col. Ellis, the attorneys retained by the old Board of Regents to test the constitutionality of the University Bill, are of the opinion that under the original Act the Governor, Attorney General and Superintendent of Public Instruction are intended to be the Regents of the University, and their successors in office. The subsequent elections by the Legislature were illegal. The present Board are legally qualified officers, and the old Board, consisting of Shaw, Getchell and Rand never had any legal existence.

They also hold the new University bill to be unconstitutional by reason of defective title, and appropriating money for a Normal School, when the original Act only contemplated a University.

## Catholic Fair.

The ladies of the Catholic Church will hold a Fair at the Opera House on the 10th, 11th and 12th of February. Admission 50 cents; children 25 cents. td

## AN IMPORTANT SUIT.

The Mortgage on the Sutro Tunnel.

Papers have just been filed in the U. S. District Court in this city to foreclose a mortgage of the Kalmat Bros. of London on the Sutro tunnel. The New York stockholders have interposed to prevent the sale. The case was argued before Judge Sabin who has taken it under advisement and given 20 days to file briefs. If the sale takes place it is supposed that John Mackay will purchase it and that the royalty being taken off ores, the market will be revived and new ore bodies uncovered that have been kept in the back ground pending the result of litigation.

## Dr. Rae's Process.

Dr. Rae's process for saving floured quicksilver gives every promise of proving successful. If it does it will be of inestimable value to the mining interests of this coast. It will enable ores to be worked which are now too low grade to be profitable, because the saving of quicksilver alone will be equivalent to virtually increasing the value of every ton of ore that goes under a stamp, to say nothing of the large percentage of precious metals which the new process, it is claimed, will save. The success of his process would make Dr. Rae a rich man, and nobody should begrudge him the wealth, for the invention which would bring it to him would benefit every little mining town on the coast. On the Carson river alone it is estimated that \$20,000 per month is lost in quicksilver. Does anyone imagine that the saving of that sum would not benefit Dayton? If this electric experiment is a success the Douglas mill would never be closed down, and many a prospector who cannot get his ores reduced would find a sale for them, and the money he would get for them certainly would not all find its way out of this town. We wish Dr. Rae success. He deserves it.—News-Reporter.

## Excitement in Berlin.

BERLIN, Feb. 11.—Advices from Algiers have caused much excitement here. Dispatches say that a number of Generals and staff officers left Algiers to assume command in France, and that four battalions of the Twelfth Army Corps stationed at Algeria have been ordered to hold themselves in readiness to embark. Preparations are being made at different ports to expedite the shipment of troops. Territorial troops, the dispatches say, are to take the place of the battalions leaving Algeria.

The Imperial Bank today placed for sale on the Bourse treasury certificates to the amount of \$30,000,000 marks.

## The School System.

The Reno Gazette snorts as follows:

A bill is introduced into the Legislature to place the office of Supt. of Schools in the back yard of the District Attorney. Why not dig a hole and bury the office? It has been used so long as a football and kicked around so long by politicians that it is now of little account even as a plaything. The candidate for office before election talks of the great, good and glorious free American school system; but when he gets a Legislative office the first thing that he thinks of is to cut off the head of the system or strangle it and throw it in the back yard of some political office-holder.

## The New Reporter.

City Editor—Mr. Smith?  
Youngest reporter (recent graduate from Berkeley)—Yes, sir.  
"Colonel Flames informs me that you called at his house to ask him about a scandal in his family."

"Yes sir."  
"And he offered you \$100 to say nothing about it."

"Yes, sir."  
"Which offer you accepted."

"Yes, sir."  
"Well, do you think that was honest and decent?"

"Why, am I expected to divide with the office? If I've broken any of the rules, I'm very sorry."

## Attention.

J. Drayfuss, agent for B. Friedlander, fine custom tailor of San cisco, is to be found at the Arlington House with a lot of samples, etc., at prices to suit the times, go and see them. Will be on hand for three days.
